(2) The Next Company, Neverland, USA

These instructions give you guidelines for preparing your URSI paper for the 2005 IEEE AP-S International Symposium. The margins and required spacing between different sections are demonstrated for author's convenience. If you are using Word 6.0 or higher, just highlight each section and replace with your own text. Otherwise, use this as a guideline to compare your final document in terms of margins, font sizes, and spacings. The required format for URSI papers is a single page abstract of at least 250 words. The abstract should briefly describe the scope of the work and clearly identify the focus of the presentation at the meeting.

The language of the symposium is English. The text should be formatted single-spaced and sized for 21.5x28 cm (8.5x11 inch) paper. The title should be centered 1 inch from the top of the first page. The author's (or authors') name and complete organizational affiliation should be two lines below the title. If there are multiple authors, the presenter is to be identified with an asterisk. The text should start three lines below the last name. Left and right margins should be 4 cm (1.5 inches). A 2.5 cm (1 inch) margin should be at the top and bottom of all pages. Paragraphs are to be separated with one blank line. Submission must withstand a linear reduction to 70% of original size and maintain readability. While the font type is author's choice, minimum requirement of 10 point is recommended to maintain readability. All submissions will be electronic and in a PDF format (*.pdf). Embedded Type 1 or True Type fonts are required in the submitted PDF file as subset fonts. Type 3 fonts (bitmaps) will not be accepted. Additional information on PDF creation is available on the web site.

-----256 words to this point-----

Do not include a list of references; a few open-literature references may be included parenthetically, for example: (R.L. Lewis and J.R. Johler, Radio Sci., 2, 75-81, 2976). Acknowledgement of financial support is not deemed appropriate. The paper should indicate clearly what new knowledge is contributed and the relationship to previous work.

Only electronic submissions in PDF format will be accepted at <http://www.ece.unm.edu/apsursi2006>. Only the corresponding author will receive a submission acknowledgement. At the web site, select the submissions menu item and create an account or login. Follow the remaining instructions for the submission. The IEEE has published [guidelines](#) for creating acceptable PDF files for use with IEEE Xplore® using the IEEE PDF [settings files](#) (available that will allow authors to automatically set Adobe Distiller to the IEEE PDF requirements).
